

# Let Go [C, 88 bpm, 4/4]

[Default Arrangement] by Scott England

## LET GO

### V1

How do you fight when you feel like you can't go on  
How do you get back when you've been gone so long  
When the worry and lies in your mind have you blind and feelin' low  
You let go

What do you do when it seems like your dreams are fadin'  
How do you hold on when everything is changin'  
When you're paralyzed with compare & the fear of the unknown  
You let go, let go

### Chorus

Let Go of your grip  
Let God handle it  
You gotta lose sometimes to win  
So let go, let go

### V2

How do you find yourself when you've lost it all.  
How do you care when you're there but your heart's not  
When you're on the edge and the limit's pushin' you to blow  
Let go

When you've already said too much yet not enough  
When you just wanna feel cause you're so numb  
When nobody can see cause you're lost in the shadow  
Let go, let go

Let Go of your grip  
Let God handle it  
You gotta lose sometimes to win  
So let go, let go
