

On the Other Side

Stopped in my tracks, I blink an eye and you are gone
I try holding back but realize I'm not strong enough
To carry this load
Just a few moments ago I was looking in your eyes
Who would have thought it'd be the last time
We all have our choices to make in this life, so tonight

This is not the end
This is not goodbye
I'm gonna see you again, my friend
On the other side

So here we are, we watch the pieces fall
We try making some kind of sense of it all
With every beat in my chest about to break me
We fight the tears, we brave the pain
Recall the years, we'll never be same
Without you here, love.

This is not the end
This is not goodbye
We're gonna see you again, my friend
On the other side

In our memories and in our hearts you'll always be
We'll be here, missing you
But on the other side, Love is holding you tight
And we can find our peace tonight in the promise of the other side

This is not the end
This is not goodbye
We're gonna see you again, my friend
On the other side
This is not the end
We'll make it through another night
The day will come when we will see you again
On the other side

We're gonna see you again, my friend
On the other side
